Note about the data

The purpose of this report is to share OFFICIATING DATA with our referees. The intellectual property contained herein is the sole property of the FIBA Refereeing Department and must not be publicized. It is provided strictly FOR YOUR PERSONAL INFORMATION. Thank you for not sharing this information outside of the referee team.

The data and statistics presented can be modified when reviewed by FIBA Refereeing Department. The latest version of the data will be used as a basis for individual and global assessments during a competition. It will also be used to detect any deviations. The data only pertains to the calls made by the referees, whether they are negative or positive, and doesn't reflect a global assessment. This report is only one part of all the variables used by FIBA Refereeing Department to help the referees to improve and grow.

Data is useful for FIBA Officiating because it provides a means to justify the quality of our calls. Numbers are not subjective. They are unquestionable fact that can be used as compelling arguments against complaints made by:

- Teams; Delegation members, Coaches, Players.
- Media
- Other estates

Global Evaluation

To obtain a final global assessment of referee performance during a game or competition, some non- tangible variables must be taken into consideration. Data is never an absolute within the context of an overall assessment, but it helps. The interpretation of the data is left to the discretion of the people responsible for the evaluation.

Most importantly, data can be used to:

- Improve referees' personal officiating skills.
- Create/adapt different training methods.
- Secure FIBA standard criteria.
- Know your level compared to FIBA standard

Quality & consistency

FIBA's Referee Department is continuously working to improve the coordination, quality, and consistency of our work. In order to attain this goal, the following people are key:
